News Conference: New Transit Service In Salem After 30 Years

News conference is scheduled for:
September 8th, 2009 8:45 AM

For the first time in 30 years Salem will have a new public transportation system. Salem-Keizer Transit / Cherriots will roll out a brand new system on 9-8-09. This new service will provide new Routes, Faster Times, and Better Service. It will significantly improve opportunities for people to use transit service to get around town with more frequent service, express routes, and more opportunities to transfer between routes. The new service design builds a solid foundation for future transit development in the Salem-Keizer area.
